General Terms & Conditions

Payment of wages

Wages are paid on a weekly basis, one week in arrears. Method of payment will be by direct credit into a bank / building society account of your choice each Friday.

Should there be any changes in your circumstances, please inform your contact at CSS immediately.

Payslips are emailed directly to your email account every week; therefore, please ensure CSS has your correct e-mail address.

If you do not have an email account, you can collect a paper copy of your payslip from your CSS Branch.

We will require your National Insurance number as we are obliged by law to deduct National Insurance from your earnings and will tax you under the 'Pay As You Earn' (PAYE) scheme.

During your assignment you may be required to document your hours on a weekly timesheet. You must complete the timesheet honestly and accurately. Fraudulent completion of timesheets will result in the termination of your assignment.

Hours of work

The length of an assignment and the number of hours you work each week may vary. There may also be occasions when no work is available, and you are not entitled to receive any pay when you are not on an assignment.

Punctuality

When you begin an assignment, you will be advised of the start and finish times. You must make every effort to arrive in sufficient time to start work at your agreed start time. As we wish to provide the best possible service to our Clients, we take a serious view of punctuality unless it is caused by circumstances beyond your control. Persistent lateness will result in the termination of your assignment.

Location of work

You have no permanent place of work and your place of work will vary according to each assignment.

Termination of assignment

In accordance with your contract, an assignment can be ended at any time by yourself, the client or CSS. When an assignment ends, CSS will endeavour to find you an alternative assignment which matches your knowledge, skills and experience.

If you no longer wish to be considered for other assignments, please inform from your CSS contact.

Agency workers regulations 2010 (AWR)

After completing a 12 week AWR qualifying period, you will be entitled to receive the same basic employment and working conditions as if you had been recruited directly by the client.

This includes: basic pay, overtime rates and holiday pay etc. Your CSS contact will advise you of any applicable increases. Please note that the AWR qualifying period is affected by holiday, sickness and shutdown.

Absence

In the event that you are unable to work for any reason during your standard hours, you must contact CSS as soon as possible, prior to your start time.

Please make contact personally unless you are physically unable to do so.

CSS are available out of hours on our emergency duty mobile: 07774 167 145.

Sickness

Statutory Sick Pay (SSP)

You will be entitled to receive statutory sick pay (SSP) if;

- You are on an assignment when you become sick.
- Your average weekly earnings are at or above the Lower Earnings Limit (set by the Government). If your average weekly earnings are less than the Lower Earnings Limit, you will not be entitled to SSP and no payment will be made.
- You are absent from work due to sickness for more than three days (the first three days of sickness absence are known as 'waiting days' and no SSP is paid for these first three days).
- You provide CSS with the following documentation:
 - A self-certification form, if your absence lasts seven calendar days or less and / or;
 - A 'fit note', which you must obtain from your doctor, if your absence lasts eight calendar days or more.

Unauthorised absence

Unauthorised absence or failure to follow the correct absence reporting procedure may result in the termination of your assignment.

Maternity absence

If you are pregnant, you must inform CSS, in writing, by no later than the 15th week before the baby is due.

Please note that when working in certain industries, it may be necessary to inform CSS and the Client of your pregnancy at an earlier stage due to health and safety reasons e.g. if you are working with certain chemicals.

You must take compulsory maternity absence in the two weeks after your baby is born or four weeks, if you are working in a factory.

Absence

Subject to the following eligibility criteria, you will be eligible to receive up to 39 weeks of Statutory Maternity Pay (SMP). SMP is paid at 90% of your average weekly earnings for the first six weeks and 33 weeks at the lower of either the standard SMP rate, or 90% of your average gross weekly earnings. The remainder of any additional maternity leave will be unpaid.

In order to qualify to be paid SMP:

If you would like to work more than 48 hours per week, CSS will provide you with a Working Time Opt-out Form. There is no obligation to sign the opt-out and with one week's written notice you can end the agreement.

If you do work more than 48 hours per week, it is recommended that you work no more than 60 hours per week for health and safety reasons.

- 11 hours' rest from work in each 24 hour period.

- You will begin to accrue annual leave from the first day of your assignment.
- Your annual leave entitlement includes 8 statutory Bank Holidays. Therefore, you must request a Bank Holiday as holiday, if you wish to be paid for it (and you are not working).
- You are responsible for ensuring that paid annual leave is requested and taken.
- Prior to requesting a holiday, you will need to check that you have accrued sufficient holiday entitlement.

Health & Safety

Manual Handling

Manual handling (lifting and carrying) is the most common cause of accidents at work. A variety of injuries may be caused by poor manual handling techniques. Injuries are most commonly to the back but hands, arms and feet may also be damaged.

What you are able to lift depends on a number of factors; your personal physique, your age, fitness and experience, the nature of the load and the techniques to be employed.

When preparing to lift, consider; What has to be moved? How far it is to be moved? Where it is to be moved to and where from? Can it be safely handled by one person? Will assistance be required? Can the load be broken down?

When lifting, it is important that you maintain the correct posture; ensure you keep your head up - do not look down at the load, keep your back straight, keep your elbows in, ensure your knees are bent and your feet should be slightly apart.

When preparing to lift ensure:

Your feet are apart with one foot slightly forward, your knees are bent, the load is kept close to your body and your back is straight.

When grasping the load ensure:

You have a secure grip, tilt the load slightly towards you and keep the load close to your body with your arms in.

When lifting loads using your legs ensure:

There are no jerks, snatches or twists, you look up and you keep your back straight.

When you move off:

Use the momentum of the lift, keep the load close to your body and use smooth movements.
